TRANSFER REPORTS FROM FOUR-YEAR INSTITUTIONS FY2025-FY2026

Transfer reports from the primary receiving institutions provide grade point averages (GPAs) of students who transfer from Seminole State College. Students from SSC transfer mainly to East Central University, Oklahoma Baptist University, Oklahoma State University, University of Central Oklahoma, and University of Oklahoma. At the end of the spring semester, the Coordinator of Assessment contacts representatives of these five schools requesting information pertaining to the number of graduates and the GPAs received by all SSC transfer students. Due to SSC's emphasis on preparing students to transfer, students are expected to achieve similar GPAs at the transfer institutions.

2025-2026 Transfer Reports from Four-Year Institution Results

All five of the transfer institutions responded to the request for information from SSC. Only two of the five reports were complete. Mean GPA's for students who transfer from SSC to the primary receiving institution are slightly higher than the average GPA at these institutions as shown in Table 1 below, having a difference from -0.06 to 0.23. SSC students complete courses successfully at a rate of 93.4%.

Table 01. 2025-2026 Transfer Reports from Four-Year Institutions

Four Year Institution	Number of Former SSC Students Enrolled	Credit Hours Completed	Credit Hours Attempted	Course Completion Rate	Aggregated GPA of Former SSC Students	Aggregated Student Body GPA	Difference	Bachelor's Degrees Awarded
East Central University	463	9493	10018	94.76%	2.85	2.62	0.23	141
Oklahoma Baptist University	215	2414	2508	96.25%	3.45	***	NA	15
Oklahoma State University	269	6,520	7,131	91.44%	3.32	3.28	0.04	67
University of Central Oklahoma	177	2674	3024	88.43%	3.12	3.07	0.05	52
University of Oklahoma	150	3,366	3,516	95.73%	3.27	**	NA	22
Totals	1274	24467	26197	93.4%				297

Data from OSU not reported in the correct format.

**Data from OU did not provide aggregated student body data, but Summer difference -0.06, Fall difference -0.04, and Spring difference -0.06.

***Data from OBU did not provide aggregated student body data.

2025-2026 Transfer Reports from Four-Year Institution Analysis

Mean GPAs for students who transfer from SSC to the primary receiving institutions are slightly higher when compared to the overall GPA for students at those reporting institutions. According to the range of results in this measure, SSC students are competitive with the overall student body with a Course Completion Rate of 93.4% and are achieving slightly higher GPAs compared to the student body GPA at the receiving institutions.

Considering that many SSC students begin college unprepared, the transfer students perform well in comparison to the other students at the four-year institutions. As transfer students, the students face different issues that might affect their grades such as larger class sizes, potentially more impersonal interactions, and adjustments to new situations and settings.
