

JOIN THE CLUB!

Did you know that being actively involved in a club and other activities on campus can lead to jobs after graduation? **It's TRUE!** There are many benefits to joining a club or activity while you are here at SSC.

Meet New People & Network

Joining a club is a great way to meet people with similar interests whether it be your love of art or an interest in shooting sports. These connections could lead to job opportunities after college and to lifelong friends. *You might meet your new "best friend from college" at an Art Club meeting or the annual Sporting Clay Tournament!*

Learn New Skills

You will get to learn and practice new skills outside of the classroom, such as planning events, advertising, graphic design, social media, budgeting, team building, and more. Most clubs are student-led, which means opportunities for you to take on leadership roles that will prepare you for the workforce. *Fun fact! The Future Business Leaders of America (FBLA) club completes a marketing project every spring.*

Volunteer in the Community

Volunteering is a great way to network and learn professional skills that can lead to job opportunities. Every club at SSC provides opportunities to volunteer in the community and be a part of community events. *Student Government offers many volunteer opportunities such as working with local nursing homes and schools.*

Resume Booster

Potential employers (and graduate schools) love to see you being involved in your campus community. Be sure to list all the new skills you gained! *The Aggie Club hosts an annual FFA Interscholastic Contest for hundreds of students that would provide great resume content.*

It's Fun!

Being a part of a club is fun! Clubs provide a safe space to gain new experiences and to share yours. *Opening your horizons to new cultures with the Native American Student Association and embracing diversity with the P.R.I.D.E. club could lead you to more connections and job opportunities.*
