

TRANSFER REPORTS FROM FOUR-YEAR INSTITUTIONS FY2022-2023

Transfer reports from the primary receiving institutions provide grade point averages (GPAs) of students who transfer from Seminole State College. Students from SSC transfer mainly to East Central University, University of Central Oklahoma, University of Oklahoma, and Oklahoma State University. At the end of the spring semester, the Coordinator of Assessment contacts representatives of these four schools requesting information pertaining to the number of graduates and the GPAs received by all SSC transfer students. Due to SSC’s emphasis on preparing students to transfer, students are expected to achieve similar GPAs at the transfer institutions.

2022-2023 Transfer Reports from Four-Year Institution Results

All four of the transfer institutions responded to the request for information from SSC. Only two of the four reports were complete. Mean GPA’s for students who transfer from SSC to the primary receiving institution are slightly higher than the average GPA at these institutions as shown in Table 1 below, having a difference from 0.01 to 0.11. SSC students complete courses successfully at a rate of 91.8%.

**Data from OU did not provide aggregated student body data, but Summer difference +0.13, Fall difference -0.11, and Spring difference -0.04.

2022-2023 Transfer Reports from Four-Year Institution Analysis

Mean GPAs for students who transfer from SSC to the primary receiving institutions are slightly higher when compared to the overall GPA for students at those reporting institutions. According to the range of results in this measure, SSC students are competitive with the overall student body with a Course Completion Rate of 91.8% and are achieving slightly higher GPAs compared to the student body GPA at the receiving institutions.

Considering that many SSC students begin college unprepared, the transfer students perform well in comparison to the other students at the four-year institutions. As transfer students, the students face different issues that might affect their grades such as larger class sizes, potentially more impersonal interactions, and adjustments to new situations and settings.
