SEMINOLE STATE COLLEGE ASSOCIATE IN ARTS IN SOCIAL SCIENCES (215)

2020-21 Degree Program Evaluation

The information required to complete this annual evaluation process mirrors the information required by OSRHE Policy on Academic Program Review. Specifically, it covers the following Vitality of the Program items: (1) Program Objectives and Goals, (2) Quality Indicators, (3) Minimum Productivity Indicators, and (4) Other Quantitative Measures (for additional information see OSRHE Policy 3.7.5.B.1-4).

1. Program Objectives and Goals

Associate in Art in Social Sciences Degree Program Outcomes Outcomes for Transfer Degree Programs Outcome 1: Demonstrate successful articulation of Seminole State College transfer degree programs to state and professional institutions of higher learning granting professional and baccalaureate degrees in Oklahoma. Outcome 2: Demonstrate successful academic achievement by Seminole State College transfer degree students at primary receiving state baccalaureate institutions of higher learning in Oklahoma. Successful academic achievement is defined as the maintenance of satisfactory academic progress toward degree completion as determined by the receiving institution. Outcome 3: Students will demonstrate the ability to explain and analyze social systems.

Outcome 4: Students will display the knowledge, skills and values consistent with the curriculum developed for the social sciences.

2. Quality Indicators

Combined Course Embedded Assessment Results For 2019-20 for Major Field Courses in Degree Program

j				
General Education Outcomes	Pre-Test % Correct	Post-Test % Correct	Difference	
General Education Outcome 1	28%	72%	44%	
General Education Outcome 2	36%	86%	50%	
General Education Outcome 3	43%	82%	39%	
General Education Outcome 4	35%	84%	49%	
Specific Outcomes for AS Social Sciences	Pre-Test % Correct	Post-Test % Correct	Difference	
Degree Program Outcome 3	43%	82%	37%	
Degree Program Outcome 4	35%	84%	42%	

Other Data Indicating Quality Relevant to Degree Program Major Field

Degree Program Enrollment by Ethnicity

Academic Year	Ethnicity	Summer 2019		Fall 2019		Spring 2020	
2020-21	Total Students	14	100%	22	100%	14	100%
	Black	2	14%	1	4%	2	14%
	Indian	3	22%	3	14%	2	14%
	Asian	0	0%	0	0%	0	0%
	Hispanic	1	7%	1	4%	1	7%
	Hawaiian/Pacific Islander	1	7%	1	4%	1	7%
	White	7	50%	16	74%	8	58%
	Undeclared	0	0%	0	0%	0	0%

Degree Program Enrollment by Gender

Academic Year	Gender	Summer 2019	Fall 2019	Spring 2020
2020-21	Male	2	6	0
	Female	11	16	14

Course Embedded Assessment for Social Sciences:

Results from the CEA for the year shown above in the table at the top were up significantly compared to the 2019-2020 year. Current results are similar to the outstanding results prior to last year's (2019-2020) decline. The Social Sciences Division goal for years was 70% minimum for post-tests. While the results of the post outcomes 1 & 4 were slightly down (69% and 67% respectively), outcomes 3 & 4 (**81%**) were exceedingly higher than the minimum requirement. The Assessment Committee adopted a campus-wide standard in 2018 of 60% minimum for post-tests or 30% growth range from the pre-test scores to the post-test scores. Based upon this standard every category for 2019-2020 exceeded the campus-wide standard and all but two categories exceeded the Social Sciences Division standard for post-tests.

Student Feedback on Instruction:

We did see improvements with regard to percentages of survey completions by class and instructor over the previous year; however, there is still plenty of room for improvement in completion rates. Instructors had a mean score of 4.7 out of 5 for all rated questions, which continues the overall

improvement in the program over the last couple of years. Last year's score was 4.52 and the year before it was 4.46. Students gave positive scores for instructor encouragement of students (4.5 out of 5—up from 4.46), concern for student success (4.6 out of 5—up from 4.42), and instructors creating an environment of respect, inclusion, and tolerance in the classroom (4.7 out of 5—up from 4.62).

For online instructors, the mean score was 4.41 out of 5 for all rated questions, which is down from last year's score of 4.53, but better than the 4.39 score from two years ago. Despite the slight decline this year, average scores are still positive. Online instructors were rated 4.38 out of 5 (down from the previous two years scores of 4.60 and 4.73) for treating students fairly and respectfully. In the area of creating greater class interaction online, the result was 4.26 out of 5 (up from 4.13 two years ago and down from 4.46 last year). Regarding the question of whether instructors routinely provided students grades via My Grades on Brightspace, the result was 4.31 out of 5 (up from 4.13 two years ago and down from 4.55 last year). The goal is to track these specific issues over five years to see if any patterns emerge.

Graduate Exit Survey: 2019-20 year not available.

ETS Proficiency Test:

The ETS test is given to students who have earned at least 45 credit hours and thus many of the students may have had their basic courses. Approximately 200 students took this test in the fall semester. This test provides information for both Seminole State College students and the national database.

Other Quality Indicators: None available.

3. Minimum Productivity Indicators

Productivity Indicators				
Academic Year	Semester	Declared Majors	Graduates	
2019-20	Summer 2020			
	Fall 2020			
	Spring 2021			

Does the degree program meet the minimum OSRHE standards for productivity this year? Majors Enrolled (25 per year): Yes Degree Conferred (5 per year): Yes

Comments/Analysis: This program just completed a 3-year effort to recruit more majors to the program. The number of graduates has gone from 2 (2016-2017), 9 (2017-2018), 7 (2018-2019), and this year 11graduates. The number of student majors has gone from 44(2016-2017), to 61(2017-2018), 63 (2018-2019) to 49 students declaring as Social Sciences majors this year. There has been improvement since the start of this effort to graduate more majors. Until this year's decline, the number of students enrolled the numbers were improving. However, overall student enrollment at the SSC has been down every year since 2008.

Low Productivity Justification: SSC overall enrollment has trended downward since 2008. I also believe that the COVID-19 lockdown probably caused the decrease in the number of students declaring this major and graduating in the spring semester.

Prefix	Number	r Major Field Course Title Numb of Section		Total Students	Ave. Class Size	Total Credit Hours Generat

5. Recommendations and Other Relevant Items: Describe recommendations, new developments or initiatives pertaining to degree program.

The Social Sciences Division has worked to increase the number of students declaring social sciences as a major by improving the variety and number of courses we offer as part of our degree. We continue to want to encourage greater student interest in our major and in particular the history, government, and sociology emphases. We are also striving to increase retention of students who have declared this major. The faculty continue to offer courses in a variety of different formats, locations, and times to accommodate our students as well. The faculty are actively involved in serving the students as faculty advisors of various student organizations such as Psi Beta and PTK, which also allows for interaction outside of the classroom to promote our majors. In addition, faculty continue to help students declare majors whether in Social Sciences through their work as faculty advisors.

We plan to update and produce better advertisements for this major and the different emphases. We are hoping to complete the updates before the spring 2020 semester. The faculty in these areas continue to promote this degree pathway in their classrooms.

This past academic year the division helped to increase the number of Zoom courses from the Social Sciences programs adding American History Survey since 1877 and Modern Western Civilization to 1660 courses. In addition to these new courses, we continue to offer American National Government, American History Survey to 1877, General Psychology, and Introduction to Sociology as Zoom course offerings.

Although SSC has started a 100%, online degree in Criminal Justice in the Fall 2021, the plan is to create a 100% online program for the Social Sciences AA with a Sociology emphasis. However, it should be noted that all Sociology courses are currently offered online.

The division has not been able to hire a new Government instructor and our full-time Sociology instructor resigned and only teaches as an adjunct now. We are struggling to staff courses with qualified adjuncts. We believe one of the key issues with finding full-time and adjuncts is the low pay for these positions. After several rounds of interviews for full-time instructors, many turned down job offers because of the low pay. The same is true for adjuncts particularly for those teaching face-to-face classes on campus.

Another recommendation is to reconsider the class sizes for Social Sciences courses. Currently, this program's courses are some of the largest on campus. Class size for online sections is set at 30 students, but most of the face-to-face classes have maximum enrollment capacities of 34 to 56 students. Our recommendation is that both online and face-to-face courses have the same maximum student capacities (preferably at or less than 30 students), with the same overload policy for both formats.
